Quick Tips

Save Documents to a New Folder Instead of Saving to the Folder Containing the Originals.

Breeze will name the output files the same as the original file, so make sure there are no duplicate name

Breeze will not Bates stamp these image files, only convert them. If you need these files Bates stamped after the conversion, proceed to the Bates Stamp Existing Files option

If you need to move or burn these images to a CD/DVD, copy the output folder (and all of the contents) to the destination or root of the disc.
