

**Print DII Volume**  
Use the load file to print blow backs of a DII volume.

---

---

---

---

---

---

---

---

**Quick Tips**

Breeze will print the image files of the selected DII file. Using the information within the DII file, Breeze will insert Slip Sheets at each document break during the printing.

The information printed onto the Slip Sheet is

Doc ID: The image tag for each document record

Pages: The number of pages within each document

Printing Slip Sheets is optional

Required settings before [GO] button is available:

- (1) Select DII
- (2) Select Printer
- (3) Select either "Print All Documents " or "Print Document Range"
